PLEASED WITH THE TICKET.

DEMOCRATS SAY THE BUFFALO NOMINEE WILL BE ELECTED.

Tammany Braves Are on Their Way Home -Some of the Delegates Have Gone to the Falls Sight-Seeing-What Is Said in This City of the Nominations and the Convention.

[SPECIAL TO THE EVENING WORLD.] BUFFALO, Sept. 13 .- The special train engaged by the Tammany delegation to the State Convention left this city at 10 o'clock last evening for New York by the Central road. It is is expected to arrive at New York about 1 o'clock this afternoon.

Most of the County Democracy delegates had excursion tickets which included a trip to Niagara Falls and back, and the majority of the uelegation will take advantage of the privilege and visit the Falls to-day, although some of them took the late express train to New York.

Most of the Purroy party left the city for New York by the 9.45 regular express last

All the delegates except a few of the counties are happy over the nomination of Gov. Hill Lieut. Gov. Jones and the selection of John Chinton Gray for Judge of the Court of Appeals. Certainly the convention was satisfactory to the Democratic masses.

The general feeling in this city among I encrats of all shades of opinion, excepting, of course, those who are avowedly hostile to Gov. Hill and his administration, is one of extreme salis action with the result of the concention's work. Nearly all the persons interviewed by the reporter of The Evennon Wonlin this morning expressed the opinion confidentially that Gov. Hill not only would be reclected with the whole State ticket, by a handsome majority, but that his renomination would add undoubted strength to the National ticket in the State.

majority, but that his renomination would add undoubted strength to the National ficket in the State.

Judgo Nehrbas, of the City Court, said: "The renomination of Gov. Hill was a wise and prudent move in every view of the case, and it shows that there is harmony in the ranks of the party, which is a good augury for success next November. Of course Mr. Hill has enemies, and so does every public man. But his friends are in a great majority, and I think that any other nomination would have hurt the national ticket in the State. It has been said that the German Democratic organization has gone to piece s. If you want to see how lively it is you ought to come up to our meeting to-night, when we will ratify the nominations made by the Buffalo convention."

Under Sheriff Sexton, who is in charge of the office in the absence of his chief, said: "The Democracy is united this time, and Hill will get the full support of his party. The kickers will all disappear by next Noyenber."

Corporation Counsel Beekman said: "I

November."

Corporation Counsel Beekman said: "I don't think my opini in is worth very much, as I have not had time to interest myself much in the campaign. I want to see the Democratic party win, however, an I I'm glad if the State ticket chosen by the Convention at Buffalo gives general satisfaction. Coroner Levy said: "Gov. Hill is the best man by all odds that the party could have nominated and he will certainly sweep the State by a large majority and at the same time add strength to the national ticket. He has made a good Governor and is a true Democrat, and I think his party all over the State appreciate these facts."

Democrat, and I think his party all over the State appreciate these facts."

Judge McGown, of the City Court, said:
"I don't see what other nomination could be made to head the State ticket than that of Gov. Hill. Any other nomination for that office would have been a bad move politically and every other way. I was talking over the matter with my colleague, Chief Justice McAdam, and he was of the same opinion and thought that Hill could easily carry the State. Judge Gray is an excellent nomination for the Court of Appeals."

Ex-Alderman Flynn, who was the only local state-man that could be found in the neighborhood of the City Hall this morning, was enthusiastic over the nomination.

'Hill is a good Democrat," he said, "and ought to carry the State and the national tacket along with it. New York will give him

An expression of Mayor Hewitt An expression of quiet satisfaction spread itself over the features of Mayor Hewitt as he sat down at his desk in the City Hall and read the headlines in the morning papers announcing the result of the convention's work. He preserved his usual reticence, however, when approached by the reporter and said: "I have nothing to say about any matter not connected with the administration of the Mayor's office."

The Mischief Such a Combination Brought About in Elizabeth.

ELIZABETH, N. J., Sept. 13.—A stabbing affray took place last night during a Repubican banner-raising at Elizabeth, and Elias Applegate, a youth of seventeen, was dangerously, if not fatally, wounded.

A number of youths were pushing and shoving on the edge of the crowd that sur-rounded the speakers' stand, and Applegate, rounded the speakers' stand, and Applegate, who was one of them, engaged in an altercation with Henry Trowbridge, aged lifteen. From words the affair came to blows and Applegate smashed the smaller lad in the eye with his fist. Trowbridge instantly whipped out a jackknife with a blade four inches long and plunged it into Applegate's breast. The injured youth staggered and fell, blood gushing from the wound. He was picked up and carried to a neighboring store, while his assailant was quickly seized by the police and locked up to await the result of Applegate's injuries.

GALLANT HOST GOES DOWN THE BAY TO TAKE MR. DEPEW OFF THE EMS.

More of a Family Affair Than a Political Demonstration, They Insist, but There Is to Be speechmaking and a Reception Just Like Blaine Had-The Sam Sloan Laden with Good Things and a Band.

Although 400 hundred invitations were ent out for the trip down the bay to-day to welcome Chauncey M. Depew, on his return from Europe, barely half that number responded in person,

Whether it was the early hour of starting. or the Sam Sloan, which conveyed the party was announced to start from the foot of West I wenty-second street at 7 o'clock this morning, or the threatening aspect of the weather that deterred many of the more prominent of the invited guests from attending, or both together, is a question. They were not there.

The excursion was organized by a Committee of the employees and officers of the New York Central Railroad, consisting of First Vice-President C. C. Clarke, General Superintendent J. M. Toucey, J. B. Dutcher and W. J. Van Arsdale. It was claimed by these gentlemen that the party was to be nothing more than a little friendly gathering of Mr. Depew's subordinates to welcome back their chies after his European trip, as had been done in previous years, a sort of family affair. and was to partake in no way of a political demonstration.

Ruppel Claims that City Marshal Goode Assaulted Her.

City Marshal Michael Goode, whose office is at 155 East Fifty-seventh street, adjoining the Yorkville Police Court, has been summoned by Police Justice Gorman to appear before him at Jefferson Market and answer a complaint charging him with assault with a deadly weapon.

On Saturday last the Marshal made a levy upon the stock of meat in the market of Mrs. Margaret Ruppel, at 590 Tenth avenue, in satisfaction of a judgment obtained by Armour & Co. against her husband, George Ruppel. The assault charged against Goods is claimed to have been made while making this levy and carrying away the goods despite the remonstrances of the woman The story told by Ruppel and his wife is

briefly this: Early in August Ruppel owned the meat market and bought \$116 worth of meat of Armour & Co. Soon after he transferred the business to his wife, and when Armour & Co. demanded payment of their bill they were

The husband, who was at work in the shop, also vigorously objected to the seizure of his wife's goods to pay his debts.

The Kuppels say that the only reply they received from Marshal Goode was a butcher knife placed on the throat of Mrs. Ruppel, with a threat that he would cut her head off the she interfered.

with a threat that he would cut her head off if she interfered.

The little market was stripped of a stock which Mrs. Ruppel valued at \$425, and was carried to the Armour abattoir in West Thirty-fifth street.

It was Saturday—the best day in the week for her business, which would be ruined if she could not get her stock back.

Mrs. Ruppel sent for her attorney, D. Frack Llovd, of 176 Broadway, who appeared at the abattoir and demanded the return of his client's goods by the City Marshal.

He said that the answer he got was somewhat sim lar to the summary treatment alleged by Mrs. Ruppel, for he was promptly pushed off a platform into the street.

Coun-ellor Lloyd advised his client to appear in the Yorkville Poile Court Mondy morning and make complaint against Goode for a criminal assault, while se premised to bring a civil action against both Goode and Armour for damages.

Ruppel and his wife went to the Police Court as directed, but their character of complainants was changed to that of detendants very speedily, for Goode saw them there and divined their object.

He got Court Officer Long to arrest them, and then complained to Police Justice Patters on that they had threatened him with assault while in the performance of his duty.

The case against the woman was dismissed, but her husband was promptly fixed \$10, in usual police court style.

The German marketman was nearly crazy with anger at having the tables turned on him so completely, and went and told his story to Counsellor Lloyd, who said that this is at action of Marshal Goode's was too much, and he should prosecute him on every possible charge and finally move for his dismissal from office in the Court of Common Pleas.

JACKSONVILLE'S MISERY. Pifty-two New Cases and Six More Deaths

by the Plague. ISPECIAL TO THE EVENING WORLD. JACKSONVILLE, Fla., Sept. 18, -The records of the Health Department at noon to-day show fifty-two new cases since the last report, and six deaths have occurred within the knowledge of your correspondent. This makes 795 cases reported since the fever first made its appearance, 106 of which have died

and about 225 have recovered. This fearful increase is ascribed to the unfavorable weather which has prevailed for more than a week. There has been a warm, steaming rain almost every day, followed by an exceedingly hot sun. The air is fairly

thick with fog most of the time. As might be expected the physicians are all worn out, and if help is not sent us very

soon they will all be down with the fever. Five of the doctor have already been down and are in various stages of convalescence. As soon as they can get around they will resume their work. Drs. Miller and Charles Burroughs are down to-day and Dr. Neal Mitchell is threatened. Walter E. Proythess,

prescription clerk at Dr. Lengle's drug store, died yesterday, and his, like too many other deaths, was due to improper nursing.

The needs of the city for competent physicians and skilled yellow fever nurses are pressing. There are many offers of services

cians and skilled yellow lever nurses are pressing. There are many offers of services as nurses, but not from yellow fever nurses, and lack of training in nursing cases suffering this particular disease leaves the nurse practically unskilled.

Financial help is pouring in sufficient to keep us going. It comes from all directions. Over \$5,000 was received yesterday, and Mr. Schumacher reports a large receipt this morning, though the exact sum cannot now be stated. Among the contributions thus far is \$1,028 contributed through the New York Woslin; \$114 from Newark, N. J., citizens; \$200 from Montgomery, Ala.; \$598 collected by the Nashville American; \$1,500 from the Lou wille Board of Trade, and \$1,000 from Clara Barton, the President of the Red Cross Association of New Orleans.

Rain has interfered with the work of erecting cottages at the new Camp Mitcheil, but six new buildings are nearly complete at Sand Hills.

not be permitted to look upon his face. The code provides that upon a person dying from yellow fever the body shall instantly be placed in a sealed casket or coffin, and it is made a felony for any undertaker or other person to thereafter expose the body. President Bayles said to-day that there is

no danger of yellow fever taking hold in this case of a crisis. city and that New York need not be alarmed. Prof. Proctor had been at Oakland, Marion County, Florida, and returned to New York Monday morning. He registered at the Westminster Hotel, corner of Irving place and Sixteenth street, and laughingly told the clerk that although he hadn't been near Jacksonville, or any other yellow-fever district, he had been fumigated and was all right. He intende I to leave for Europe Sat-

urday, and had left his family in Florida. He was fatigued, however, and retired to his room for rest. That evening Prof. Proctor had developed a pronounced case of yellow fever, and Tuesday at midnight he was removed to the Parker Hospital, where the fatal black vomit set in yesterday, and he died as stated.

The Health Board and physicians kept the

matter so profoundly secret that nothing was known of the case until THE EVENING WORLD printed it in the Sporting Extra last evening. NO EXCITEMENT AT THE ROTEL. Contrary to general expectation, no great excitement is apparent at the Westminster Hotel over the presence of the dreaded

epidemic.
The room which was occupied by Prof. Proctor has been subjected to a thorough disinfectment and is kept locked, also the room adjoining.

"We do not expect any serious results from the case," said Clerk W. I. Kilpatrick to an Evening World reporter this morning; "and our guests do not show any disposition

to leave.
"We have altogether about two hundred two have altogether about seventy-five and forty guests, of which about sevency-five are ladies and a small percentage of children, but beyond a king me about the matter, no als m has been evinced.

"As early as 6.30 o'clock this morning I was beseiged with guests who inquired about the chances of danger, but most of the inquires were made in a jocular spirit. ONLY ONE PARTY LEFT. "But one party have left, and they were located in the spartment-house adjoining, but located in the spartment-house adjoining, but their departure was not due to the fear of fever, but on account of economy.

"Probably the best proof of the lack of alarm is the arrival of over a dozon people this morning. In each case we explained that we had had a case of yellow fever in the house, but none of them were frightened, and they are now in the hotel.

"As yet no word has been received from Prof. Proctor's wife, in answer to the telegram sent her yesterday. Some distant relatives of his are residing in the city, but have

not sent any messages or put in an appear-ance." NOW THE GURSTS TREAT THE SUBJECT. A good instance of how the guests treat the subject was shown by a Mr. William Nolan,

A GUEST BEFUSED ADMISSION. At the Albemarle it was learned that a guest from Florida had been refused accom-modation.

THE BOARD OF BRAITING PRECAUTION It was stated in the Health Department this morning that during the past two or three weeks every death certificate giving fever as a cause of death has been referred to Dr. Edson for examination, special attention being given to intermittent and remittent tevers, as they are characteristic of the yel

low type.

This was done as a precautionary measure,
and nearly fifty such diagnoses were made,
resulting in fixing the diseases beyond doubt as bilious or typnoid. WHAT PROTECTION HAVE TRAVELLERS? The fact that Prof. Proctor came to New York on a Pennsylvania Railroad train Mon-day, and that he was sick on the train, has

day, and that he was sick on the train, has caused some uneasiness among passengers who are compelled to travel by that rente and has raised the very serious question. "What precautions are taken by the railroads carrying passengers from the South to gnard against the transportation of the fever infected?"

Supt. Josenh Crawford, of the Pennsylvania Railroad, was not at his office in the Jersey City depot this morning, and his chief clerk answered the inquiries of The Evening World representative.

NO PHECAUTIONS TAKEN. " We have received no orders on this divi sion of the road to take any precautions against the transportation of passengers from Florida, as yet. The system is large, however, and there may have been orders issued regarding the passenger traffic on the road south of Philadelphia.

"Nothing was known by us about Prof. Proctor's illness until we saw the account of his death this morning. In fact, we did not

know he was a passenger on the road or on what train or in what car he made the journey. I have no doubt that the necessary sani tary precautions of funiga ion and disinfec-tion will be taken by the radroad authorities

f they shall be necessary.
The Pennsylvania Railroad has a test station at Alteona, Fa., in charge of a practi-cal chemist, Mr. Dudley, who prepares their infectants.
Last year when the cholera was in the lower bay, every passenger car, and the sta-tions and the varis along the line of the road were disinfected. It it is deemed necessary similar recautions can be taken now at short notice."
